New Mexico Demands Statehood of the 57th Congress.

Theodore Roosevelt, Jr., is very ill at Groton, Mass., where he is attending school. President and Mrs. Roosevelt are at his bedside. His early recovery is hoped by all.

Judge A. J. Abbott, father of District Attorney E. C. Abbott, was last week appointed reporter of the supreme court of New Mexico. The Judge is well qualified for the position and the appointment gives general satisfaction.

The re-appointment of Gov. M. A. Otero was the wish of a majority of the people of the territory. He was appointed by the President and confirmed by the senate, now let both sides drop that question, and work for the upbuilding of New Mexico.

The Progress does not belong to that class of people who believe in changing the name of this territory when it becomes a state. New Mexico is good enough for us. Those people east who do not know that New Mexico is a part of the United States belong to that class who believe the earth is flat and discoverer been out of the country. They were told so.

There is always money for mining investments, but many would-be investors fancy that holding but a developed mine should have money put into it. The real miner knows that this is often a mistake. The men who have made the most money out of mines in this country have not done so by buying developed mines at full value loaded with commissions. The great fortunes of Huggins, Lewis, Mackay, Walker, Hayward, Hearst, Clark, Stratton, Crook, Daly and a hundred others were made by developing prospects into mines. That is the way big money is made in mining; that way lies the profit. - *Cross and Motals.*
